Preventing and Controlling Healthcare Associated Infections –

Part 1

(10335)

COURSE DESCRIPTION

This course discusses foundational concepts related to preventing and controlling healthcare associated infections and has been developed for healthcare workers employed in Australian health services. The course is based predominately around Australian National Safety and Quality Health Service (NSQHS) Standard 3 (Preventing and Controlling Healthcare Associated Infections) and the Australian Guidelines for the Prevention and Control of Infection in Healthcare (2010).

Learning Outcome

This course will cover:

- basic microbiology
- an introduction to infection
- international and Australian jurisdictional oversight of infection prevention and control
- risk management in infection prevention and control, and
- an introduction to NSQHS Standard 3 - Preventing and Controlling Healthcare Associated Infections.

Course Features

- Adaptics - Kineo's unique approach to refresher training
- professional audio
- animation and interactivity
- WCAG 2.0 accessibility
- mobile compatibility
- formative assessments, and
- a certificate of completion.

Audience and Duration

The course is suitable for all clinical staff.

Duration: 75 minutes
