HLTAID002 Provide Basic Emergency Life Support

COURSE DESCRIPTION

Learn the skills & knowledge required to recognise and respond to life-threatening emergencies in line with the Australian Resuscitation Council (ARC) Guidelines.

First Aid skills are invaluable and simple for everyone to attain. A little knowledge can Save a life! Past Training Unlimited students have used their CPR skills to sustain a life until medical help arrived.

SKILLS GAINED

- Respond to an emergency situation
- Perform CPR on adults and infants
- Manage an unconscious breathing casualty
- Apply appropriate first aid procedures
- Communicate details of the incident

YOUR COURSE

- Save time by completing pre-learning & assessment before class.
- Spend 6 hours on practical training in class.
- You will be issued with a Statement of Attainment for HLTAID002 Provide Basic Emergency Support.

YOUR ASSESSMENT

- Pre-learning assessment
- Workshop based learning
- Practical assessments

ENTRY REQUIREMENTS

Learners must have demonstrated interest in the course. There are no prerequisites for this course! CPR skills are to be demonstrated on a manikin that has been placed on the floor.

We operate classes across Victoria. Have a group of 10 or more or a workplace area suitable for training, our trainer will come to you and contextualise the training based on your company's unique requirements.
